MARATHON HARDWARE

K-EVO WASTE SYSTEM

Technical Specifications & Assembly

Vibo K-Evo

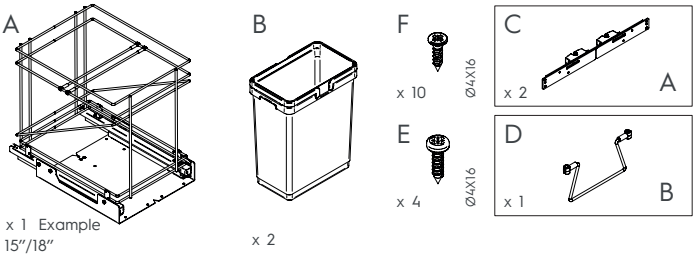

Product Features

The Vibo K-Evo Waste Bin System is designed to make kitchens work better while making life easier for manufacturers, installers, and homeowners alike. Faster, more precise installation reduces labor and service issues, heavy-duty synchronized performance ensures smooth and dependable operation over time, and flexible configurations adapt to a wide range of cabinet styles and project requirements. The result is a cleaner, more efficient waste solution that delivers reliability, convenience, and a more refined everyday user experience.

- Pre-assembled steel base with factory-installed slides for faster, more accurate installation and reduced service callbacks.
- Synchronized European-made heavy-duty slides for smooth, stable performance and long-term durability in high-use kitchens.
- Dual operation options with door-mounted pullout or handle-operated pull configurations to suit different cabinet designs and customer preferences.
- Face-frame and frameless cabinet compatibility for broad application flexibility across kitchen projects.
- Load Capacity: 70kg (154 lbs.)

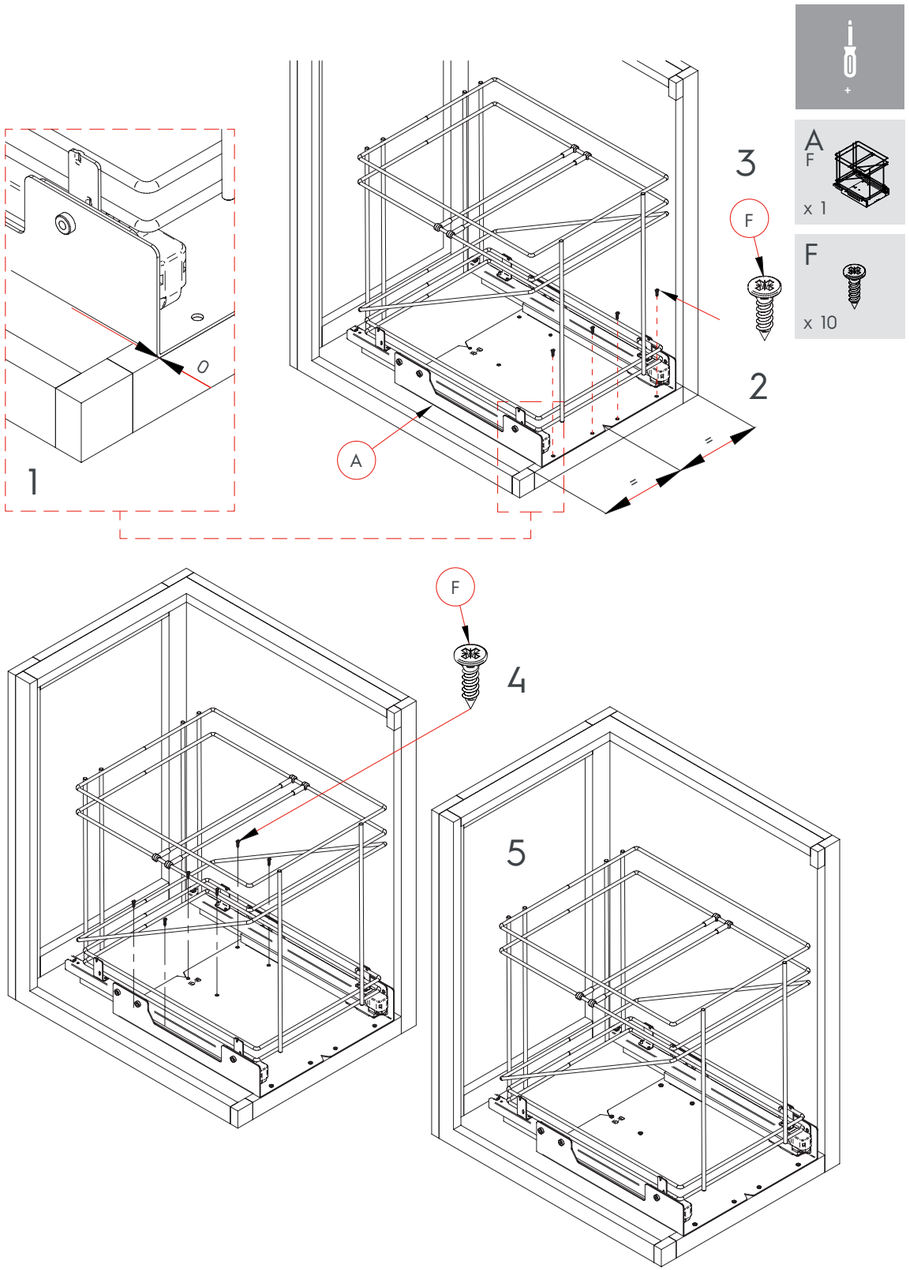

What's In the Box

- Frame
- Bin
- Door Brackets
- Handle
- Screws

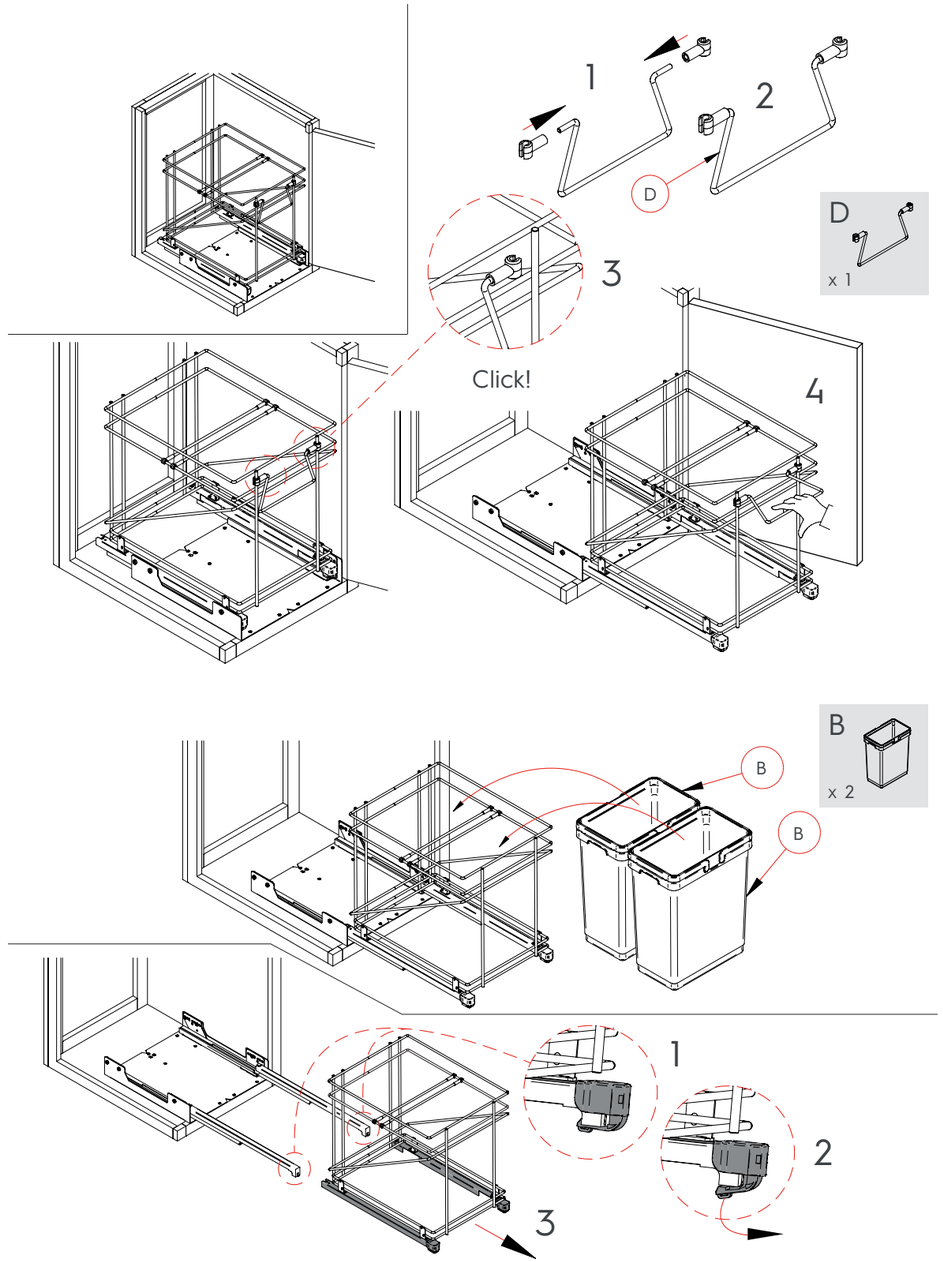

Size	Capacity	Dimensions (W x H x D)	Part#
15"	33L	292mm x 507mm x 514mm	041-VKEVO15-33-CR
18"	2x 30L	368mm x 507mm x 514mm	041-VKEVO18-60-CR
21"	2x 30L	444mm x 507mm x 514mm	041-VKEVO21-60-CR
24"	2x 33L	520mm x 507mm x 514mm	041-VKEVO24-66-CR
